

kg-acme: Knowledge-Graph Capability Hub

Data Flow

End-to-End Pipeline: extract → resolve → detect

Immutable Snapshot

~/Library/Caches/kg-acme/
capability-snapshot.json

17 capabilities · fingerprinted ·
atomic write · all help/list/describe

read only this file

Work Dir: stage-*.envelope.json + artifacts (SHA-256 checksums, resume support)

Policy Gates (fail-closed)

--allow-network
--allow-data-egress
--allow-model-download
--allow-db-write
Default: all denied. --dry-run
plans with zero side effects.

Provider Discovery

1. --provider-bin ID=PATH
 2. ./sync/<os>-<arch>-bin/
 3. ./sync/bin/
 4. PATH lookup
 5. PATH scan for kg-provider-*
- Each probed: describe --json +
available --json (15s timeout)
